BASKETBALL

Gould's Academy 08; Norway 34

The Norway teams were smothered beneath an avalanche at Bethel, Thursday night. Gould's established beyond a doubt their superiority over the Norway laddies. The general opinion was that the referees chosen by Gould's Academy were a little harsh with the Norway teams in their decisions, the girls' team being defeated the same night; but both teams swallowed the bitter medicine handed out to them without a whimper.

Norway H. S. 37, Thornton Academy 20

Coach Luce's basketeers "cracked a tough nut," Friday night, in the form of Thornton Academy. The Saco lads hit a fast clip under a full head of sails, but failed to jump the hurdles. Norway pulled a horse-shoe break and came out of the jungle in a twin-six, that left the Thornton flivver stalled in the dust with a flat tire. The home bus zipped along on the straightaway, ambling clear of all pitfalls and snags. With their second wind, the Norway crew rowed into the home stretch in a "burning 'em up" streak that gave the "Caddies" the toboggan slide. Roy was the evening's ace at connecting with the hoop, coming thru with 13 goals and 6 fouls; a total of 32 counts. Nevers and Lafrance worried the Saco head-man into three forward substitutions. Kenyon and Palmer easily held up their end, but were content to help Roy on the scoring end. Two baskets apiece was the limit for the Saco players.

The Norway Athletic Club backed the paper-city boys to the wall at the first whistle for a clean walk-over Friday night. The knockout started when Luce nailed a basket for a couple of markers before the Rumfords loosed the kinks out of their legs. The game was fast and clean with Luce and Hubbell tied for the first place.

The championship sophomores of Maine lost out in a fierce mill with "Slob" Richardson's classy colts Friday night. The two heavies, Rogers and Richardson, mixed like a couple of bulls in a china shop, but failed to do any damage beyond repair. The slaughter was general, with the Sophomore's summary a carbon copy of the Independents' resume, except in one instance; the rf for the Indies scored a foul that the Soph. rf didn't. Wallace W. Sheen, aged 50 years, a native of Massachusetts, died at his home in Limerick on February 14 from a shock of paralysis.

Mr. Sheen ws well known in Norway where he resided twenty-five years and was employed as shoe cutter and pattern maker in the B. F. Spinney & Co. factory. He was a familiar figure in military affairs and at one time a commissioned officer in Company D. 1st Maine Regiment. At the beginning of the Spanish-American War he was seargent in the Norway Company and promoted while the Maine regiment was mobilized in the South. Mr. Sheen served one or two enlistments after the company returned home as first lieutenant, and raised the company to a high state of efficiency.

A penny cake walk was one of the features, the cake being decorated with a miniature George Washington, holding the hatchet and in front was the cherry tree, very appropriate for the day. Mrs. Lola McAllister was the winner. A buffet lunch was served, and all had a merry evening. At the next meeting, St. Patrick's Day will be observed and the committee in charge includes Mrs. Lilla Rice, Mrs. Eva Fogg, Mrs. Edith Estes and Mrs. Mearle Brown.

Herbert Aretus Rich

The sudden death of Herbert Aretus Rich came as a great surprise to his friends and relatives last Thursday. Mr. Rich had been in failing health for some months past.

He was born in Oxford, April 24, 1859, the son of Aretus and Mary (Saunders) Rich and came to Norway while a small child where he spent his life. In Nov. 1878, he was united in marriage with Nettie J. Benson of Woodstock. They established a home in Norway, living on Main Street until Mr. Rich built them a home at 16 Pine St., where they have since been located.

Mr. Rich died from cancer of the liver and although he suffered, he never complained, his one thought was for his wife, to keep her from woriment regarding his illness, and for his children. He never gave a thought to himself always thinking of others and doing many little deeds of kindness. He was a highly respected citizen of Norway and tried to be a friend to everybody. He was a kind and loving husband and father.

He was a Democrat and of Advent belief. He was a member of Norway Lodge, I. O. O. F., No. 16, and a charter member of Mount Hope Rebekah Lodge, No. 58. He was a Past Chief Patriarch of the Wildey Encampment, a charter member of Modern Woodmen of America and one of the oldest members of Hose Company No. 2. He was the son of a Civil War veteran.

Mr. Rich was at one time employed in the tannery but after a few years it closed its business here and he sought and obtained employment in the B. F. Spinney Shoe factory where he worked for fourteen years. Being seized with an attack of pneumonia, after a long and severe illness he was obliged to obtain employment out of doors and he then took up trucking and teaming as an occupation, with which he was occupied when his health began to fail.

Mr. Rich is survived by a widow, seven living children, six grandchildren, three brothers and one sister. One daughter died in infancy and is laid at rest in Eastfield cemetery. His children, Vernell A., Owen D., Herbert A., Miss Marjorie W., all reside at Norway. Mrs. Mamie Keough of Auburn and Mrs. Lula Fellows of Portland. One daughter, Sadie Eva, died in infancy. He leaves one brother in Auriora, Ill, a sister in Manchester, N. H. and two brothers in Norway.

Funeral services were held Saturday at one-thirty from his late residence on Pine Street with the Rev. O. B. Tracy officiating. There were many very beautiful floral tributes.

Mrs. Elizabeth McLucas

Mrs. Elizabeth McLucas passed away at her home on Marston St., Feb. 23. She contracted a cold which quickly developed into pneumonia. Mrs. McLucas was born, Oct. 6, 1841, in Chesterville, N. H., the daughter of Matthias and Clarissa Rackliffe) Smith. In 1864 she was united in marriage with Mark McLucas of Denmark. For many years thev lived in East Fryeburg, but since 1900 her home has been in Norway. Her husband died in 1907 and since that time she has been tenderly cared for by her children.

Although 83 years of age she was young in mind and interested in everything that concerned her friends and neighbors. She especially enjoyed the "Advertiser" and eagerly awaited its weekly arrival. She was a very devoted mother, giving her whole life to the care of her family, and her loss will be deeply felt. Her only son, M. W. McLucas, assistant of the Boulevard Trust Co., Brookline, Mass., has been seriously ill and could not come to her, but her four daughters were with her and did everything in their power for her comfort.

The remains were placed in the tomb in Pine Grove cemetery and in the spring will be taken to East Fryeburg where her husband and two children are buried.

Funeral services were held at the home, Monday, at 2.30 P. M. conducted by J. H. Jodrey, a personal friend of the family. The floral offerings were beautiful.

Norway High School Notes

February 18th to 23d was observed as "Better Speech Week" by all schools.

The evening study hall periods are still finding favor among the students and teachers.

The Junior drama has been postponed and the Senior drama will be given instead. "Good Evening, Clarice" has been selected and rehearsals will start as soon as the cast is picked.

The Freshman-Sophomore Debate will be held at the high school building a week from Thursday. The question to be debated is: "Resolved: That the United States should enter the League of Nations." The Literary Club extends a cordial invitation to everyone.

Bernice Cummings returned to school last week.

Rank cards were given out Monday

The high school operetta is nearly ready to be presented. The exact date has not been determined.

Glenn Andrews heard Coach Luce's geometry class, Thursday morning.

The agricultural department is running three incubators at the present time, a Queen hot water machine belonging to the department, a Cyphers hot air owned by Lester Richardson, and a Wisconsin hot water belonging to Victor Everett. The capacity of the three machines is nearly eight hundred, the department machine holding one-half of that amount.

One hundred R. I. Red eggs were obtained from Mrs. Harry Jackson, two hundred from Mrs. Edgar Chase of Locke's Mills, White Wyandottes, and one hundred from George Young's, Barred Rocks. The poultry class is finishing a brooder house owned by Lester Richardson to care for the baby chicks.

Norway High School at Carnival

Norway High School found seventh place in the Winter Carnival at Augusta last week, one point was secured by Frances Gammon who finished third in the cross country run.

The team representing the school comprised Norman Annis, Holman Tucker, Francis Gammon, Francis Noble and Erwin Cummings. The principal, Geo. E. Lord, accompanied them. Entries were made in four of the seven events with creditable performances despite exasperating accidents which usually occur at the wrong time. The boys failed to bring home silver cups, but won valuable experience in good sportsmanship.

Annis won the first heat in the trials of the 100 yard dash for skis but lost in the final.

Tucker was second after the trial in the 100 yard dash for snowshoes and second in the semi-final. He was leading in the final when his snowshoe smashed and a fall was the result. This disqualified the runner.

Gammon was leading in the relay race on snowshoes and skis, before a fall. Annis made up the loss; Cummings held strong but Tucker stumbled on his getaway and the team failed to score. They berely missed a third position at the finish.

In the cross-country run Gammon finished 3rd, Annis 5th, Noble 19th, Tucker 29th.

Competition was keen in all events with a total of 88 contestents. Many familiar with athletics believe in the future a different classification of events for certain groups of secondary schools would be advisable. High schools not equipped for ski jumping, speed skating or hockey are at a disadvantage against Academies and institutions so provided. Under the present arrangement it is possible for a secondary school to win a championship from four events but in fairness to all, many believe a readjustment would increase enthusiasm for this State-wide event and encourage numerous smaller high schools not represented, to enter and make the contests more representative.

W. R. C. Notes

This was made and decorated by Mrs. Addie Lovejoy. An attractive penny lunch followed in charge of Mrs. Alice Blaquiere, Mrs. Rose Everett, Mrs. Ida Gammon, and Mrs. Sadie Lapham. The business session followed. During the evening, Mrs. Addie Thurston, in behalf of the members, presented Mrs. Edith Edwards, the retiring secretary, who has served in this capacity for nine years, with an adjustable electric table lamp, in appreciation of her faithful service. Mrs. Edwards was taken completely by surprise and was speechless for an instant.

SOUTH PARIS

Fire Alarm System Agitated

Action will be taken at the corporation meeting, Tuesday evening, on Article 15, which refers to installing a fire alarm system in the village.

A representative of the Gamewell Co. made a survey, Wednesday, and has a plan which will be presented at the meeting. The Diaphone Compressed Air system is considered advisable for South Paris with twelve alarm boxes, two current switchboard, metallic battery rack, storage batteries and motor generator. Connection with the switchboard at the Norway telephone exchange is possible A rough estimate gives about 6 miles of wire to be strung, including the telephone connection.

Under the system which seems advisable signals are sounded by compressed air in tanks, kept automatically up to a given pressure. Alarm boxes are non-interfering and confusion is avoided.

This is an important matter and the Gamewell engineer will explain everything at the meeting on March 4 in the I. O. O. F. banquet hall.

Caswell-Muzzy

Clarence B. Caswell and Miss Elizabeth Muzzy, both of South Paris, were united in marriage at Portland, February 21. Rev. J. A. Anderson was the officiating clergyman.

The bride is the daughter of Henry and Fannie (Stowell) Muzzy, and has been a life long resident of South Paris. She is a graduate of Paris High School and has been employed in W. J. Wheeler & Co.'s office for several years, and where she will retain her position.

The groom is the son of Mr. and Mrs. F. W. Caswell and received his education at the Buckfield High School. He is employed in the garage of Alton Maxim.

The young couple have the best wishes of their friends. They will reside in So. Paris.

Hayes accepted the trust. A. B. Garcelon of Bangor, a former superintendent, largely responsible for agitation which started the movement, expressed his pleasure of seeing his dreams realized.

A fiery cross erected on the slope of Brett Hill, a mile or so east of the village attracted attention early in the evening of Washington's birthday anniversary. The illuminated cross was visible for miles around and started numerous wild rumors of burning farm buildings, until it was noised around that this might be a symbol prepared by the Knights of the Ku Klux Klan. The cross burned nearly one hour and caused no little amount of excitement as this the first demonstration of its kind in vicinity.

WHY SUFFER SO?

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Norway people recommend Doan's Pills. Ask your neighbor. Could you ask for stronger proof of merit?

Albert F. Prescott, shoemaker, Crocketts Bridge, Norway, says: "My kidneys gave out and I had backache so badly it put me past going for several days. I couldn't bend, I was so stiff and lame. I was working in the ship yards at the time and I blame so much heavy lifting for the trouble. I had to get up several times during the night to pass the kidney secretions and I felt drowsy all the time. Finally I went to Stone's Drug Store and got Doan's Pills and began using them. Doan's reached my case at once and after using three boxes, the trouble left entirely. I have felt fine since."

Are We Extravagant?

Here are some costs on Studebaker cars—

Would you have us cut them down?

WE are lavish on Studebaker cars. For some features we pay three and four times what they need cost.

Here are some of those costs which affect you. Tell us—would you want any one reduced?

Our prices on high-grade Sixes run from $1025 to $2685. They stand at bottom in the fine-car field, despite these extra costs. All because the demand requires 150,000 cars per year.

But they could be lower if we cut these costs. Would you have us do it?

Engineering—$500,000

Our engineering departments cost us $500,000 yearly.

Our Department of Research and Experiment employs 125 skilled men. It spends vast sums in analyses and tests.

Our Bureau of Methods and Standards fixes every formula, every requirement. It makes 500,000 tests per year to maintain our high standards.

We make 30,000 inspections on every Studebaker car during manufacture before it goes out of the factory. We employ 1,200 men to do that. Those are heavy costs. But remember how they are divided — by 150,000 cars per year. They form but a trifle per car.

$50,000,000 in plants

We have invested $50,000,000 in modern plants and equipment. $8,000,000 in drop forge plants. $10,000,000 in body plants — as the only way to do Studebaker coach work.

These plants are equipped with 12,500 up-to-date machines, many of them very expensive.

But consider the alternative. Profits to other makers. We save up to $300 for you by building Studebaker bodies in our own body-plants.

15% extra on steel

On some steels we pay a bonus of 15% to the maker. Just to get our formulas exact. We could save that extra on "commercial runs."

We are one of the very few builders, either in Europe or America, using crankshafts machined on all surfaces. It costs us $600,000 a year to give you this. But it results in that smoothness of operation, that lack of vibration, which characterizes only the most expensive cars.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under $5,600 in America. The Light-Six more than any competitive car within $1,500 of its price.

Other costly extras

Our bodies are finished with 18 operations, including 15 coats of paint and varnish.

We use real leather upholstery. We could cut the price of our open models $25.00 were we willing to use imitation instead of genuine leather.

We upholster our closed models in the finest Chase Mohair. Cotton or ordinary wool, or a combination of both, would enable us to reduce our price from $100 to $150 per car. But we would thus sacrifice Studebaker quality and reputation.

The many extras on our large closed cars would cost much if you bought them. The nickel-plated bumpers, the extra disc wheels and cord tires, the steel trunk, the courtesy light, motometer, etc.

Extras to our men

We pay the highest labor scale. Then we add extras to it.

Men who are with us five years or over get 10% of their year's wages in an anniversary check. Those anniversary checks last year cost us $1,300,000.

After two years all employes get a week of vacation with pay. That cost us last year $225,000.

Old employes who retire get pensions.

All this to keep men with us while they grow more and more efficient. To make them happy, so they do their best.

This is all paid by people who buy Studebaker cars. But we figure that each such dollar saves us five dollars. Don't you agree with us?

The utmost in car value

The object is to give you the utmost in car value. You will find we do that if you make comparisons. In any Studebaker model, you will find scores of ways in which it excels any rival car.

That is why, in the fine-car field, the Studebaker leads. The demand has almost trebled in the past three years. These cars have become the sensation of Motordom. On some of these models we have never yet been able to meet the demand.

We spend money lavishly. We build without regard to cost. But, in our quantity production, we still bring costs to bottom.

You should learn what these things mean to you before you buy a car.

Don't Buy a Fine Car

OXFORD

Fore Street

Well, now the town reports are out, I feel I might write of the doings of some of us on Oxford Fore Street. After receiving your note to curtail items until then, imagine my surprise in reading much concerning Flora Cummings and her whereabouts, the joke being that it is thought she wrote it herself, when, truth to tell, she was innocent of that list. She is home now and visited by her son and wife, and Monday Mr. and Mrs. Alanson Cummings of Woodstock. They made the trip down by auto but had to house the auto and go home by train.

BEFORE BABIES WERE BORN

Mrs. Oswald Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Girardville, Pa.—"I took Lydia E. Pinkham's Vegetable Compound before my last two babies came. It keeps me in perfect health and I am on my feet getting meals and doing all my housework until an hour before the baby is born. A friend told me to take it and I have used ten bottles since I heard about it. I recommend the Vegetable Compound whenever I can. Just yesterday a friend was telling me how miserable she felt, and I said, 'If you start taking Lydia E. Pinkham's you will feel fine.' Now she is taking it."—Mrs. P. J. Oswald, Jr., 406 W. Ogden St., Girardville, Pa.

Mrs. Nicola Paluzzi Says

Mishawaka, Indiana.—"I took Lydia E. Pinkham's Vegetable Compound for weakness before my babies were born. I was weak and tired out all the time and it helped me. When I had inward inflammation the doctor treated me, but it did not help me, so I tried Lydia E. Pinkham's Sanative Wash and it helped me right away. I will always have your medicines." — Mrs. Nicola Paluzzi, 415 E. Broadway, Mishawaka, Indiana.

"THE COVERED WAGON"

Emerson Hough's great story of the winning of the west, "The Covered Wagon," is booked for an engagement of three days at the Empire Theater, Lewiston, commencing Monday evening, March 3, where it will be presented exactly as it is being shown in New York, for a run that is breaking all records, and at Chicago, Boston and Los Angeles, where it set up new records for each city.

"The Covered Wagon" tells the story of the opening of the Oregon trail and how the wagon train which started out to open up the vast west in 1848 divided in the desert when the word of the gold discovery in California reached them and some treaked south to search the placer mines for precious nuggets while others with that great spirit which founded the west trudged patiently and bravely northwestward to Oregon and with plow and shovel planted the first seeds which have flowered into treasures undreamed of in their aggregate wealth as the steady stream of produce continues to flow from those fertile fields and valleys.

In this hegira of two thousand miles through unexplored plains and deserts, naturally hardships and adventures were encountered and Indian fights and massacres fill their historical page in the development of the story with its picturesque scouts and the rough hewn characters who peopled these trains in the days when men's souls were tried to the last reach of human courage and endurance. Mr. Hough has revived a tradition in his historical background to his story but he has gone further and made the people of that period in whose debt generations upon generations to come will ever remain, come out upon the plains again and live their drama over.

WELL KNOWN CLERGYMAN DROPPED DEAD

Rev. R. E. Gilkey, pastor of the Dixfield Congregational church, dropped dead, Friday noon, at Union Station, Portland, as he was about to take the train for Dixfield. He was born in Vermont, March 21, 1856. He came to Maine as a young man and has since held several pastorates in the State. He is survived, aside from his widow, by and 8 year old son, Ransom Eugene, one daughter by a former marriage, Mrs. Ida Klotzer of California, and a step-daughter, Mrs. Ethel DeMerritt of Grover, N. H. He also leaves a brother who lives in Vermont. Before going to Dixfield, Rev. Gilkey was pastor of the Free Baptist church in Auburn.

All returned home feeling well paid for going.

Assessors of Taxes to Return List of Dogs to State Treasurer

Section 101. Assessors of taxes shall include in their inventories lists of all dogs owned by or in possession of any inhabitant on the first day of April, setting the number and sex thereof opposite the names of their respective owners or persons in whose possession the same are found, and make a return to the treasurer of state of said lists and also of the number of dogs killed as required by section 106 of this chapter on or before the fifteenth day of June following; and if any city or town fail to return to the treasurer of state on or before September first of each year, a sum of money equal to the license required by this chapter, on all dogs living on the first day of June preceding, such deficiency shall be collected in the same manner as the state tax of such delinquent city or town for the following year.

DOGS TO BE REGISTERED, NUMBERED, AND LICENSED

Section 102. Every owner or keeper on the first day of April, of a dog more than four months old, shall annually before the tenth day of said April, cause it to be registered, numbered, described and licensed for one year commencing with the first day of April aforesaid, in the office of the clerk of the city or town where said dog is kept, and shall keep around its neck a collar distinctly marked with the owner's name and its registered number, and shall pay to said clerk for a license the sum of one dollar and fifteen cents for each male dog and for each female dog incapable of producing young so kept, and five dollars and fifteen cents for each female dog capable of producing young. Any person becoming the owner or keeper of a dog after the first day of April, not duly licensed as herein required, shall within ten days after he becomes the owner or keeper of said dog, cause said dog to be described and licensed as provided above. Every owner or keeper of dogs, kept for breeding purposes, may receive annually a special kennel license authorizing him to keep said dogs for said purpose, provided he keeps said dogs within a proper enclosure. When the number of dogs so kept does not exceed ten, the fee for such license shall be $10.15; when the number of dogs so kept exceeds ten the fee for such license shall be twenty dollars and fifteen cents, and no fees shall be required for the dogs of such owner or keeper under the age of six months. Dogs covered by kennel license shall be exempted from the provisions of this section requiring registration, numbering, and collaring.

Section 103. The clerks of cities and towns shall issue said license and receive the money therefor, and pay the same to the treasurer of their respective cities or towns within thirty days thereafter, retaining to their own use the sum of fifteen cents for each license so issued; and the said treasurer shall pay the money so received to the treasurer of state on or before September first of each year, who shall credit the same to a fund called "Dog Licenses." Such clerks shall keep a record of all licenses issued by them, with the names of the owners or keepers of dogs licensed and the sex, registered numbers and description of all such dogs; provided, however, that the sex, registered number and description shall not be required of dogs covered by a kennel license.

TREASURERS TO KEEP SEPARATE ACCOUNT

Section 104. The treasurer of each city or town shall keep an accurate and separate account of all moneys received and expended by him under the provisions of the preceding section.

PENALTY FOR KEEPING UNLICENSED DOG

Section 105. Whoever keeps a dog contrary to the provisions of this chapter shall forfeit ten dollars, five of which shall be paid to the complainant and five to the treasurer of the town in which the dog is kept, and in addition thereto shall pay the cost of prosecution.

WARRANTS TO BE ISSUED TO OFFICERS TO KILL UNLICENSED DOGS

Section 106. The mayor of each city and the municipal officers of each town or plantation shall annually within ten days from the first day of May issue a warrant, returnable on the first day of June following, to one or more police officers or constables, directing them to proceed forthwith either to kill or cause to be killed all dogs within said city, town or plantation, not licensed, collared or enclosed according to the provisions of this chapter, and said constable or police officer shall or any other person may enter complaint against the owner or keeper thereof. Last Friday evening, Mrs. Chapman entertained the girls of her Sunday School class at the parsonage. The supper table decorations were reminders of Washington, the august Father of his Country, whose birthday was being celebrated, but the dignity of that great man was no hindrance to the thorough enjoyment of that hour nor of the period of games and music which followed.

The M. E. Home Department will meet, Wednesday afternoon, March 5, with Mrs. Philbrook, 17 Summer St.

At the present time he is busy making baskets with more orders than he can fill.

Harry Goodwin's 2 year old colt ran away to the village last Sunday, just as the men folks do who live on Pike Hill. All but one participant in a recent farmers' festival at Kalmar, Sweden, attended the event in motor cars. "In that particular section of Sweden," says a consular report to the United States Department of Commerce, "ox carts not long ago were the only means of communication. Peasants and small village functionaries, who formerly looked upon the auto with marked disfavor, have changed their attitude and view it as a sign of their country's prosperity, and are now doing their part in keeping the roads in some kind of order." Three thousand two hundred and thirty passenger cars and 798 motor trucks were brought to Sweden from foreign countries during the first six months of 1922, as compared with 2,634 cars and 548 trucks for the corresponding six months of 1921.

BY THEIR ACTS YE SHALL KNOW THEM

"The sinister alliance between crooked business and crooked politics has done more than all else for the corruption of American life."

Ever since Theodore Roosevelt made this statement events have moved rapidly along this same course.

The act of Secretary Fall is leasing to private parties the National Naval Oil reserve whereby he seems to have a few hundred thousand dollars (at most) passed to his credit. is but one and a trifling example of what has been taken from the American public by this alliance so graphically described by one of our greatest statesmen, and one whose knowledge and complete grasp of the subject of which he spoke was equaled by none.

It is true the Ballinger incident under Mr. Taft's administration was nipped in the bud before their work had been consumated but Pinchot and his subordinate, Glavis, lost their official heads for bringing the matter before Congress, and the fact that their accusations were correct never restored them to favor in the administration.

I think it was never proven that Mr. Ballinger's law firm were the Attorney's it be called?) contributions from the Morgan-Guggenheim coal syndicate. Mr. Ballinger's law firm were the Attorneys for the syndicate, and no one could doubt but that some fine morning Mr. Ballinger would have awakened to the pleasant realization that some jolly Santa Claus had made him a millionaire. It seems that Secretary Fall got a little farther along and perhaps was doing it in a more crude way.

In both cases property of almost uncalculable value was to be turned over to our people of great wealth, that belonged to the public.

Today an even greater contention is being made to secure from the public for a mere nothing the priceless water powers of this country in whose value these concessions would be insignificant.

Thank God we have in Washington a little minority of men, some of them in the Republican party and some in the Democratic party, that stand for justice for the public.

We have the best form of government ever created by man but "eternal vigilance is now and always will be the price of liberty" and advancement.

If our Government, state and National, Legislative, Executive and Judiciary, act in the interest of all the people for a square deal for all, prosperity such as was never known before would be with us as a permanent possession. We are truly the richest people in the world, but is not something wrong?

Over 80% of the 999,000 families of Massachusetts, the home of our Puritan ancestors, live in rented or mortgaged homes. This state is one of the wealthiest spots on earth. The taxed value of its real estate in 1920 was $3,885,495,341.00.

One single individual (not Henry Ford) has accumalated a fortune now in excess of this entire assessed value of real estate of this great state, and is still taking in a little hard earned income of 24% on his investments.

Another corporation that has more than $1,000,000,000. of its capitalization never represented by one dollar, according to John Skelton Williams (Former Comptroller of the Currency) on Dec, 31, 1919 wer carrying a huge balance of more than $580,000,000.00 and still making enormous profits.

During one year, approximately $4,000,000,000.00 of stock dividends were passed out in this country largely to capitalize War profits so that they could perpetually demand profits on them from the public.

One corporation aside from paying 24% on its capitalization from 1912-1921 inclusive, issued a stock dividend of $393,333,200.00 to its needy stockholders. This was aside from all of the "unjust, unreasonable and burdensome taxes and excess profits taxes that our late President Harding in Dec., 1919 (then Senator Harding) said must be removed from our great corporations in order to reduce the high cost of living.

The one outstanding accomplishment of his administration was to reduce those taxes in the vicinity of $300,000,000.00.

"Not my soul what thou hast done, but that thou now art doing. Not the course that thou hast run, but that thou are now pursuing.

So now, President Coolidge, backing the program of Mr. Mellon (great owner of Gulf Oil and incidently acting as secretary in the President's cabinet,) proposes to reduce income taxes so that the ultimate results will be about this way: The man that pays an income tax on an income of $5,000. will have his tax redumed about $25.00 while these gentlemen of the millions of income and the millions of stock dividends with their wealth that exceeds the value of entire state of this union will have their taxes reduced by the millions.

"The sinister alliance between crooked business and crooked politics has done more than all else for the corruption of American life."

People are led by acts more than preaching.

Can you see any connection between the acts of these officials and great men on finance, and the increase in crime?

SAVE WOOD AND TIMBER

The forest problem of the United States is in an important sense a problem of public education. The private owners, especially the great number of small owners, should know what prospect of profit timber growing holds out, how market salable material to the best advantage, how to cut so as to secure regrowth of the right kind and how to restore run-down forest and idle land to good productive condition.

The introduction of new practices in land use must overcomea tremendous inertia due to unfamiliarity and hesitation to embark on a course not fully charted by custom and experience.

Wood industries and consumers alike need to be educated in the most economical and advantageous use of wood. The general public needs thorough education in the prevention of forest fires of a kind that will change ingrained habits, no light and simple task.

The public should also have an intelligent grasp of the reasons why forest conservation is necessary from the standpoint of local and national welfare, how it is practiced, and what part the public should take in promoting it.

The educational task in forestry is of an importance fully equal to any that is presented by the whole great problem.

NORWAY AND VICINITY

FROM A FARMER UP IN TOWN

Next time they hold a meeting in this good old Norway town,
You can bet your bottom dollar that I'm "jest" a-going down;
I am going to 'tend that meeting, and I'm going to have a say
On the awful things that happen in this "durned" old town that day.
Why! this town has got in debt so, that a man don't "scarcely" know
Where he's at or what is coming, what to do, or where to go;
And "I tell yer," friends and neighbors, taxes creep up mighty fast,
And we've got to stop this spending 'fore another year is past.
It was bad enough, I reckon, when you paved your streets down through,
"Jest" to please some of your voters, and appear like cities do;
But you clean forgot your children, and how fast their numbers grew,
'Till you heard your teachers saying,
"They might 'bust' the buildings through."
Now you're in a "peck" of trouble, and you don't know what to do!
Say! look out they don't spend more money on roads and cement bridges, too;
For if this thing keeps a-going, we can't live in this 'ere town,
And earn enough to pay our taxes, 'fore another year comes 'round.
Well, "by gosh," I'm going to stop it, if my vote will do the deed,
For this town is "spiled" completely by its awful spending speed,
So next time they have town meeting, I am "jest" a-going down,
And you'll hear some strong opinions from a farmer up in town.

SUPREME JUDICIAL COURT

In the cases Grover C. and Mildred F. Hartford vs. Western Maine Power Co., the jury awarded damages to the plaintiffs amounting to $6,350.00.

The trespass case, Frank Velquosky of Bird Hill, Bethel, vs. Dr. Widd B. Twaddle, of Bethel, occupied one afternoon. This action was for alleged damages from five horses pastured in a field adjoining the plaintiff's farm. As learned from the testimony, Velquosky had considerable trouble from the animals breaking through the fence and damaging his crops. He drove the horses back into the field and notified Dr. Twaddle. Fences were repaired but the trouble continued. The horses were captured and confined in the plaintiff's barn and replevined by Dr. Twaddle. The defendant says the damage asked at that time was $200 which he called excessive.

In the writs the damages claimed was $450 for 1918 and $642.50 for 1919, a total of $1,092.50. The defendant acknowledged trespass but considered the amount for damage excessive. The Jury awarded $482.45 damages. The attorneys were W. G. Conary for Velquosky and H. H. Hastings for Dr. Twaddle.

The last jury trial was heard Friday in which Leslie L. Day of Porter brought action against Harry B. Pratt of that town to recover damages for an auto collision. A three and one-half ton truck owned by Pratt and a Ford car came together on the Ossipee trail and the Ford received some damage. The defendant claimed his truck was on its own side of the road, therefore not responsible for the collision. Lester Wentworth of Portland, a witness, failed to answer a question from his counsel and was charged with supressing facts. He was fined $10 for contempt of court and committed until paid. The fine was paid immediately. The Jury found a verdict for Day in the sum of $104.54.

Washington's Birthday

The East Waterford Circle met at the schoolhouse Friday, Feb. 22, in honor of Washington's birthday, with about fifty present. A fine baked bean and pastry dinner was served and a social hour enjoyed. After clearing away dinner a fine program was given by the school children consisting of recitations, drill, songs and last, but not least, a young minstrel troup of five darky boys, Clayton Hall, Teddy Heath, Myrwin Marston, George Wentworth and James Heath, who sang and acted out the song, "Good Massa Lincoln" which brought down the house. They were called back and repeated it, much to the delight of all.

Burton Sanderson was then called upon, who responded in his usual pleasing manner congratulating the teacher and scholars on the good work accomplished and the pleasure it gave him to see so many of the parents present and the interest taken for only by cooperation can the high standard of work be carried on. He then gave them an interesting talk on the life and home of Washington. Having been principal of a high school in Massachusetts for many years, he had the pleasure of visiting, with his scholars, this home at Mt. Vernon. In imagination we went with him from the cellar to the attic, visiting each room and examining the furniture as he described it, then to the carriage house and barn and through the beautiful grounds to the gardens which we have all read about and seen pictured out. It was very interesting and instructive and much enjoyed by all.

L. E. McIntire and wife, C. S. McIntire and family, and all the helpers on the farm took in the Circle dinner, coming in the two horse farm wagon on sleds and enjoying a jolly good time.
